

Miss Elizabeth Graham McNary Gives Pretty Tea For Girls Of Younger Set

MISS ELIZABETH GRAHAM McNary, who has been spending the school season with her aunt, Mrs. Henry T. Bowie, in giving a tea of informal pretty details for a group of the girls of the younger set this afternoon. She is assisted by her aunt.

The Bowie home, on Fort Boulevard, is fragrant with spring flowers, snapdragons of pink and white predominating. The table for the service

of refreshments in dainty with pink and white flowers in decoration and the tea and cakes will feature the pink and white. Mrs. Bowie and Miss McNary are assisted in the hospitality of the afternoon by Mrs. Samuel E. Marshall, of Denver, sister of Mrs. Bowie; Miss Martha Black, of Pittsburg, cousin of Mrs. Bowie, who arrived at noon Saturday, and a group of girls of the younger set, including Misses Ruth Elizabeth McNary, Violet Armstrong, Annabel Gray, Katherine Spence, Edith Lane and Mary Lee. Forty guests are calling during the receiving hours, from 4 until 6 o'clock.

For the evening a number of additional guests will come in for dancing.

One of the important social announcements for the week is that of the luncheon to be given on next Thursday at the Harvey house, with Mrs. Robert Holliday as hostess, in compliment to Mrs. James Graham McNary's guests, Mrs. Samuel E. Marshall, of Denver, and Miss Martha Black, of Pittsburg.

W. H. Daniels, of Denver, Colo., gave a delightful dinner party at the Paso del Norte, Monday evening. Those present were Mr. and Mrs. H. F. Helweg, Miss Florence Helweg, Miss Clara Helweg, Mr. and Mrs. J. J. Hite and children, Frank, Jr., and Evelyn.

Jail Takes Paying Guests to Meet Expense

Lexington, Ky., May 4.—"If you want a room for the Kentucky derby stop at the jail."

This is the message from James H. Barr, head of the Jefferson county prison at Louisville. The number of prisoners has been cut down by prohibition and the jail no longer pays its running expenses. Rooms are scarce in Louisville for the coming horse racing season and Barr sees a way to pick up a few honest pennies for the county. The rate, he says, will be \$1 a day. And guests may be assured of ample protection.

Boy Student Supplies School With Crayon

Denver, Colo., May 8.—George Cardner, 13, student at Manual high school, is Denver's youngest captain of industry.

Then a shortage of charcoal crayon at the high school became acute and the supply at downtown stores was exhausted. George constructed a small charcoal crayon on a vacant lot and is now manufacturing what is claimed to be an excellent grade of crayon.

The oven is operating 24 hours a day and young Cardner is reaping a tidy sum from sales of the crayon to students.

Reception Tendered First Christian Church's New Members; 200 Present

MORE than 200 guests were present on Friday evening for the reception given at the First Christian church in compliment to the new members of the congregation.

Rev. Milo Atkinson, pastor of the church, presided during the evening and gave the welcoming address. An orchestra from Fort Bliss, which came in from the post with chaplain W. B. Zimmerman, furnished music for the evening and other numbers of interest were given, including a reading by Dorothy Denton; a talk on experience in France as a Y. M. C. A. worker, by D. C. Maciver, who also gave a number of magician's stunts, and a humorous address by Kelly O'Neill.

Chaplain Zimmerman also gave an interesting address, and after the program refreshments were served by the Loyal Women's Bible class of the church.

Boston College Girls Bathe in Icy Waters

Boston, Mass., May 8.—Snapshots show around the College of Liberal Arts revealed the fact that two Boston university girls opened the bathing season at Nantucket amid ice and snow while on the Alpha Delta Xi house party.

The ice and snow, showing in the pictures, did not make these two freshmen members, Miss Dorothy Robertson and Miss Martha Kellogg, shiver, at least, but until they had taken a dip in the cold, briny deep.

One Loved By All Who Cross Her Path Must Have Charm Beyond the Physical

Beauty, Alone, Makes Enemies; Has Force To Repel As Well As Power To Attract; Woman Loved, Admired And Respected By All Is Woman Who Gives Out Kindness and Love, And Wins Fame.

By BEATRICE FAIRBAX.

"ON the street where we live," writes a reader, "there is a woman about 25 years old. She is comely, a neat dresser, but poor. She possesses the most wonderful pair of brown eyes you ever saw. They are like a pair of soft brown velvet. Now what I want to know is how the attractive people."

"I see her every day and I notice people turn around and look after her. All the children in the block run after her. They carry her handkerchiefs. They hug and kiss her. The policeman even goes out of his way to talk to the other one: 'Don't you love her?' and the second one answered, 'It seems everyone loves her.'"

"Please tell me is it her eyes that attract all this attention, or is it her smile? We would love to know. For who wouldn't like to be loved as she is?"

It isn't the woman's eyes which attract, nor is it her smile. Mere beauty of soft velvet orbs or a gentle smile couldn't be so universal in their appeal. Chances differ so strongly that not everyone in a block can be expected to like brown eyes or to admire a certain expression on a face. The butcher and the baker might have a prejudice in favor of blue ones.

Charm Beyond Physical.

When anyone is loved by everyone who crosses her path, she must have for them a charm which goes beyond the physical. That stands to reason because we all differ about beauty and what constitutes it. Beauty, moreover, makes enemies. It has a force

Bombed London, German Fast Train Ploughs Through Herd of Cattle

London, Eng., May 8.—What is thought to be the absolute limit of "speed" is a letter recently received by the Handley-Page company from an ex-German flying officer. The German stated that he had been on a fast train which had been bombed by German squadrons and had served on the western front.

The applicant stated that he was "crushed" when with a machine gun, having flown over the eastern counties of England on many occasions.

As this indicated that he was one of the men who had bombed London and the eastern counties, the authorities of many British women and children—the application was returned with the comment, "no vacancy."

Pastor Gives 8 Reasons "Why Girls Leave Home"

San Francisco, Calif., May 8.—There are eight main reasons "why girls leave home," according to the declaration of Dr. James L. Gordon in a sermon at the First Congregational church. The reasons are these:

To see the world.

To secure an education.

For financial gain and advantage.

Because the boys in the family recommended them to leave home.

To secure the social recognition that is due them in town or village.

Because of the lack of tact on the part of parents.

To escape the hurt of a great sorrow.

Sometimes, but not often, to cover up a mistake or blunder.

FIVE PATROLMEN WILL BE ADDED TO POLICE FORCE

Five more patrolmen will be added to the police force at once according to announcement made Saturday by chief of police Montgomery after consultation with mayor Charles Davis. This will bring the total number of men and women on the force to 74.

This number added to the special policemen and watchmen employed by firms of the city, brings the total of officers in the city to more than 100.

Chief Montgomery said Saturday that a new beat will be created on South St. Vrain street in the vicinity of Third and Fourth streets.

PALMER SAYS HIS ONLY FIGHT IS ON ALIEN REDS

Philadelphia, Pa., May 8.—Attorney general Palmer's "May day" warning of radical outrages could not be construed as an attack upon organized labor," he says. "It is a curious fact that honest, 100 percent American labor should be put in the position of defending alien anarchists. Alien anarchists are the only people I am against. The alien anarchist is as much against organized labor as he is the government. When I said the alien anarchist was up to the neck in the throat of organized labor, I made no reference to organized labor."

OFFICERS PLAN PROSECUTIONS FOR FALSE INCOME RETURNS

W. H. Black, chief deputy collector of internal revenue, said Saturday the revenue office in El Paso now is working with a view of prosecuting every case of false income and revenue tax returns. Mr. Black said it is the intention of his office to rigidly examine every report and get to the bottom of each case of alleged false returns.

SUFFERED TEN YEARS FROM INDIGESTION

Trouble Gone, Appetite Strong, and Eats Anything Without Distress.

"I had a case of catarrh and indigestion of ten years' standing. I had been treated by the best medical men in Michigan. When I commenced taking Milla Emulsion I was in bed. I improved so fast that I kept the neighbors wondering how I was now up and working every day. My cough is gone. My appetite is great, and I can eat anything without hurting me."—H. D. Lovelace, Rockford, Mich.

Indigestion is seldom cured by "piling" the stomach with food. Digestive like phlegm, usually make slaves of the stomach and bowels.

Milla Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physic. It promotes appetite and quickly puts the digestive organs in shape for assimilating food. As a builder of flesh and strength, Milla Emulsion is strongly recommended to those whose strength has weakened and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day. I am now so comfortable that I can eat with a spoon like ice cream. Truly wonderful for weak, sickly children. No matter how severe your case, you are urged to try Milla Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.25 per bottle. The Milla Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

the authorities of her neighborhood, she has won that love. She is living close to the dealers, to whom her little amount is probably less of an asset than her gracious and friendly greeting of them. She isn't in a position to fool them. She isn't in a position to be a patron they find it wise to cultivate. She is just a simple soul, to whom they respond in friendly liking or from whom they turn in indifference. They're nothing to gain or lose by winning her liking—save only by liking her.

But the spirit which makes her eyes so kind and soft and gentle and yet so compelling, must be a beautiful thing, a far more wonderful thing than the eyes which are its symbol and which it illuminates. The nature which makes her eyes so lovely is undoubtedly rare and fine and exquisite.

When a woman attracts everyone with whom she comes in contact it must be because she is stirring. Some of the people may be lightly won—yes. But everyone? To do that requires mart, sweetness, gentleness, charm, coming from a radiant and uplifted soul and the friendly, neighborly interest too many of us are afraid to show.

"To have a friend you must first be one."

The woman who is loved and admired and respected by all is a woman who gives out kindness and love and who wins them by wanting them—and by deserving them.

Overalls

an Extravagance

The trouble with the times, aside from underproduction, is that too many people are buying too many things they don't need.

The "overall movement" is all right in theory—but in practice it defeats its own aim. How many men have bought overalls when in their wardrobe at home two or three old suits were hanging, neglected and ignored?

We could have taken any one of these suits and put them into good-as-new shape for less than was spent on the overalls.

COULD AND STILL CAN!

Southwest's Dry Climate Ruins Pianos

Many pianos which bear enviable reputations in the North and East are often not suitable for this climate.

Dampness is dominating in the North and East, the atmosphere containing humidity, while here in the Southwest we find just the other extreme—the atmosphere is dry, and evaporation very great.

As a consequence, many pianos manufactured in the humid climates dry out and crack after being exposed to our dry climate for a while. This fact should be most seriously considered by prospective local purchasers.

There is just one way to avoid a mistake of this kind; buy an instrument which has successfully stood the hard test of time. Because years of "TEST" in this very climate is your ONLY safe guarantee that a certain make of pianos will stand satisfactorily.

Experiments are costly. We have devoted the past 24 years finding pianos suitable for this "dry" climate. No need for YOU to experiment. We have already done this FOR YOU and you can now buy a piano and feel contented that an experiment is not being conducted with your money.
